## GT Gold Upsizes Previously Announced Non-Brokered Financing to \$3.2 Million

Vancouver, British Columbia – April 20, 2017 - GT Gold Corp. ("GT Gold" or the "Company") (TSX-V: GTT) is pleased to announce that it has increased the size of its previously announced non-brokered private placement to raise gross proceeds of \$3.2 million (the "Upsized Offering") due to very strong demand. The Upsized Offering will involve the sale of 2,712,000 common shares of the Company at a price of \$0.32 per share, and an additional 5,167,750 common shares to be sold on a flow-through basis at a price of \$0.45 per share for aggregate gross proceeds of \$3,193,328. Closing of the Upsized Offering is anticipated to occur on April 25, 2017 and is subject to receipt of applicable regulatory approvals including approval of the TSX Venture Exchange. All shares issued in the Upsized Offering will be subject to a four-month resale hold period in Canada from the date of closing. The Company may pay finder's fees in accordance with the rules and policies of the TSX Venture Exchange.

The net proceeds from the Offering will be used for exploration of the Company's Saddle Gold prospect, and for general working capital purposes.

The Company earlier announced a carefully planned, 98-hole, 4,600 metre Phase I drill program at Saddle, to be carried out in June and July this year. The Phase I program will consist of both reverse circulation and diamond drilling, geophysical surveying (20 line-km of IP), soil geochemical sampling (1,200 samples), and is fully financed. The Company believes that given the limited weather window (June-September) and chances of success with Phase I, it is prudent to have a Phase II drill program financed and ready to be executed in the latter half of the summer. The funds raised will be used to ensure uninterrupted operations from August through early October, should Phase I results be supportive and weather conditions allow, resulting in an estimated doubling of the total metres drilled this year.
