GT Gold Reports Third Quarter 2017 Results

Vancouver, British Columbia – November 27, 2017 - GT Gold Corp. (“GT Gold” or the “Company”) (TSXV: GTT) is pleased to announce its results for the three and nine months ended September 30, 2017. All amounts in this release are in Canadian dollars unless otherwise indicated.

During the quarter, GT Gold initiated the first-ever drill program at the Saddle prospect on its 100%-owned Tatogga property in northwestern British Columbia, Canada, resulting in the Saddle gold discovery. The Company completed a total of 17,707 metres of drilling in 92 holes, comprised of 16,180 metres of core drilling in 64 holes and 1,527 metres of RC (reverse circulation) drilling in 28 holes. In addition, the Company completed 165 line-kilometres of detailed airborne magnetic surveys, 32 line-kilometres of ground-based IP surveys, and 2.2 line-kilometres of detailed resistivity surveys. More than 14,000 samples from the drilling were collected for assay and approximately 2,950 samples from the final 19 core holes are pending.

"We have made a remarkable amount of progress in a short period of time and are just starting to understand the potential of the Saddle discovery," said Kevin Keough, GT Gold's President and Chief Executive Officer. "For the balance of the year we will be analyzing and modeling the data gathered, and developing our 2018 exploration plan."

Note: the complete analysis of the Q3 2017 financial results can be found in the MD&A and financial statements dated November 24, 2017 filed on SEDAR.

The Company's net loss in the current quarter is higher compared to the net loss during the third quarter of 2016 mainly due to ramping-up exploration activities during the quarter ended September 30, 2017.

The loss in the nine months ended September 30, 2017 is also higher compared to that of the nine months ended September 30, 2016 due to the exploration activities mentioned above.

Liquidity and Capital Resources

As at September 30, 2017, the Company had cash of \$5.8 million and working capital of \$4.9 million compared to cash of \$2.1 million and working capital of \$1.9 million at December 31, 2016. The change in cash was primarily due to proceeds from a brokered \$5.75 million private placement of common shares that closed on August 17, 2017.
